

JSL JET PACK 60

The latest addition to the well proven Jet Pack range of van mounted jetters is the JSL 60.

This robust and reliable model has been designed with versatility in mind and is ideal for surface cleaning, graffiti removal and for cleaning drains up to 6" diameter. The JSL 60 offers options of manual or hydraulic hose reel and many other features that are normally found only as extras on other similar products.

An impressive performance of 200 bar (2900 psi) at 36 l/min (8 IGPM) is produced by a heavy duty industrial pump and 20hp diesel engine. A comprehensive range of drain and general cleaning accessories is available to complement the product.

The JSL 60 provides 60 gallon water carrying capacity and the entire concept is suited to fitment in any SWB vehicle. It is also available in trailer mounted format.

We offer a same day fitting service in our manufacturing facility.

URACA

Inlet hose reel fitted with 20 Mt supply hose. High pressure hose reel with a capacity of 60 metre.
