

JSL JET PACK 90

The JSL 90 van pack has been designed specifically for the professional user. It is a robust and reliable product that combines the versatility of a powerful surface jetting machine and a highly effective tool for cleaning drains up to 10" diameter.

Standard performance options of 275 bar (4000 psi) at 55 l/min (12 IGPM) or 240 bar (3500 psi) at 74 l/min (16 IGPM) are available along with a comprehensive range of drain and general cleaning accessories.

The twin saddle tanks provide a well balanced 90 gallon water carrying capacity and the entire concept is suited to fitment in any LWB vehicle.

We offer a same day fitting service in our manufacturing facility.

Inlet hose reel fitted with 20 Mt supply hose. High pressure hose reel with a capacity of 300 metre.
